Nu-Hope Laboratories, Inc.

The history of **Nu-Hope** is an interesting one of tragedy turned triumph because Nu-Hope was born out of necessity. The founder, Edmund Galindo, suffered from chronic kidney disease. Unaware of the severity of his condition, he volunteered for the war effort in 1941. Doctors there were so alarmed they told him he only had one more year to live! He survived that prediction by 18 years. Eventually medical treatment was no longer effective and a urinary diversion was performed in January of 1958. Back then there were no ET's to turn to for help and there were many frustrating months of leakage, sore skin, and constant laundry. However, Edmund was not about to give up. Being of keen mind, he experimented with new appliance designs and by the middle of 1958 he succeeded. Ed proved the worthiness of his new appliance system on himself, returning to his active life of business, golf and swimming. The doctors in the Los Angeles area were so impressed with his success that they urged him to manufacture and market his appliances so that others might benefit.

At first, supplies and appliances were freely handed out. Soon it became apparent that in order to continue helping others a company had to be formed. Thus, in 1959, Nu-Hope Laboratories, was founded. The name was derived from Mrs. Galindo's first name "Hope", and the feeling that they were offering "new hope" to others in need. Unhappily, Edmund Galindo's health continued to deteriorate and on November 11, 1959, he passed away. Determined to carry on the founder's legacy, Hope Galindo and 19 year old son Eugene continued with the business. In 1974 Edmund's daughter, Louise, became an active member of the family business for 20 years.

During the pioneering years, Gene Galindo visited and fitted hundreds of ostomy patients in hospitals and homes and learned much about stomas and stoma care. Dealing with the many different shapes and sizes presented new challenges. Stoma placement, skin conditions, and the new ostomate's acceptance of their ostomy were all issues that needed to be addressed. Gene continued in his father's footsteps by developing many new ostomy appliances and related accessories. Enterostomal Therapists did not exist at that time and Nu-Hope partially filled that need, working closely with the medical profession and ostomy associates.

Currently there are over 4,000 E.T.'s and several Wound Ostomy Continence Nurse accredited Educational Programs. Nu-Hope continues to work closely with E.T.s/WOC nurses to provide innovative products and services for their special needs. Over the years Nu-Hope has built a reputation of manufacturing innovative, high quality, reliable ostomy appliances and accessories.

Ordering Information

All orders should be directed to the Customer Service Department, by mail, telephone, fax, or email. Toll free line 800.899.5017 is available weekdays (excluding national holidays) between the hours of 8:00 a.m. and 4:30 p.m. PST. Fax number: 818.899.2079. Send email inquiries to: info@nu-hope.com.

Shipment and Terms

All stock products are shipped UPS Ground Service unless otherwise specified at the time of ordering. Terms are F.O.B. origin, prepaid and charged. Customers may request priority shipping. Orders shipping outside the USA will be charged full shipping charges, shipping charges to be either prepaid and added to the invoice or shipped freight collect. Any special requests may be subject to a minimal \$5.00 service charge added to the invoice.

Product Warranty

We warrant that, at the time of manufacture, this product was prepared and tested and meet our specifications.

Because of biological differences in individuals, no product is 100% effective under all circumstances. In addition, because we have no control of the condition under which the product is used, diagnosis of the patient, the method of use or administration, and handling of the product after it leaves our possession, we do not warrant either a good effect or against an ill effect following the products use.

The foregoing warranty is exclusive and in lieu of all other warranties either written, oral or implied (including any warranties of merchantability or fitness for purpose). No representative of the company may change any of the foregoing and the buyer accepts the product subject to all terms herein.

Returned Goods Policy

Authorization is required before returning merchandise. Items returned without a Return Authorization number will be returned freight collect at our option. For all returns of any stock item, contact Nu-Hope by calling 800.899.5017. Requests must specify reason for return (e.g. ordering error, shipping error), catalog product number and quantity and invoice number with date of invoice and/or purchase order number. Returned products must be accompanied by original order invoice, packing slip or facsimile. Returned items are subject to a reprocessing charge up to 20% of original item cost. Full credit will be given to the customer for an item returned due to a processing error by Nu-Hope. No credit will be given for an item returned unsuitable for restocking. Returned products must be accompanied by an RA number, be undamaged, properly packaged for shipping, and should not have been used.

Due to variations within product lines, Nu-Hope reserves the right to designate stock items.

Product Changes

Nu-Hope reserves the right to change or discontinue any product without notice. If the product has been discontinued, we can recommend alternatives.

Product Storage

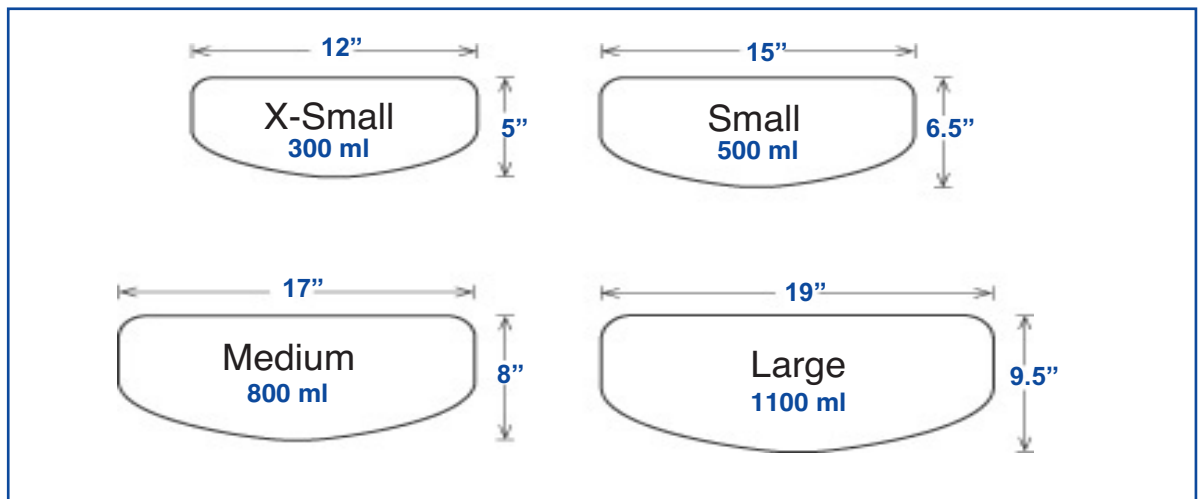

Nu-Hope Non-Adhesive products should be stored in a dark, cool and dry place. Extended periods of exposure to light have resulted in degradation of some vinyl materials and should be avoided. Extended periods of elevated temperature can reduce a product's shelf-life and should also be avoided.

New Customers

Customers who order an ostomy product for the first time and discover that it is not the correct size or does not meet their need, will have 30 days from the date the product is delivered, to receive a full refund of the cost of the product.

Urostomy Systems

Used to provide urostomates a reusable system for urine collection and drainage. Supplied non-sterile. Intended for single patient use only.

Urostomy Systems

Right Stoma Location

Product Number	Description	O-Ring Size	Pouch Size

Silicone O-Rings

The pliable silicone o-ring, when tensioned properly by the belt, creates a secure seal between the pouch and abdomen.

*When added compression is needed to maintain a seal with a softer abdomen or skin roll situations, the Extra Tall ring may afford a more secure seal around the stoma.

Urostomy & Ileostomy

Product Number	Description	O-Ring Size	Fits Stoma Size
EV7000-00XX-RNG	Silicone O-Ring 1 (one) Per Package 	Small	7/8 inch
EV7010-00XX-RNG		Medium	7/8 to 1-1/8 inch
EV7020-00XX-RNG		Large	1-1/8 - 1-3/8 inch
